Edmonton Green

Ward Profile: 2023

This profile is intended to provide a guide to the demography, social and economic data and Council facilities in the ward.

At time of writing, not all data is available at ward level for the new ward boundaries (effective from 2022). Some statistics appearing in this document have been aggregated from smaller statistical geographies on a 'best fit' basis.

The profile has been collated using the most up to date local-level data relating to 2022 as far as possible. A variety of statistical sources have been used in its compilation.

Edmonton Green

Population

Based on the [2021 Census](#), the ward population is estimated to be 17,126.¹ The population increased by 2.2% from 2011 to 2021.

Age Profile

The ward has relatively high numbers of children and young adults when compared to the borough average, and proportionately fewer older adults. Women outnumber men in most age bands over 10 years of age (see table bottom).

¹ Census 2021 population totals vary in accordance with geographies and characteristics being measured: eg the sum of all-age ward populations do not necessarily match the published borough total, and the sum of age band totals do not necessarily match ward and borough totals. This has occurred owing to changes in statistical suppression practices used by the ONS in order to release Census data more quickly. Differences are small and have very little effect upon calculations of proportions.

Socio-economic classification

Occupational groups are taken from the 2021 Census. The table below indicates the occupational profile of the ward, compared with the borough in general.

Low Income Households

Data from CACI Ltd indicate that – as at 2023 – households in the ward have an average (median) household income of **around £31,000 per annum**, which is lower than the borough and London averages, and the lowest of all Enfield's wards.

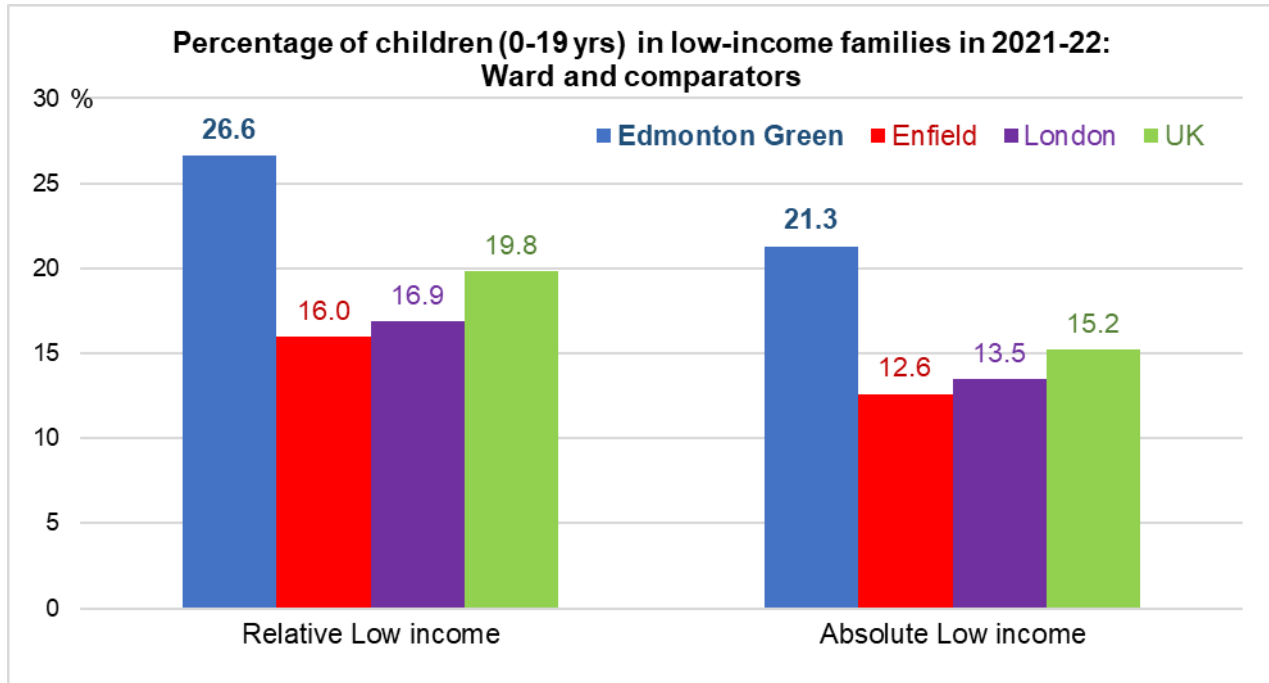

- 29.2% of households have a household income of less than £20,000 per annum – the borough average is 17.3%
- 18.2% of households have an income below £15,000 per annum – the borough average is 10%

Edmonton Green

Statistics from the Department for Work and Pensions indicate that, in 2022:

- 1,419 children² in the ward (26.6% of the total) were living in families with Relative low income, and
- 1,135 (21.3%) were in families of Absolute low income³.

The proportions of children in poverty compared with local, regional and national averages are shown in the chart below.

Benefit Claims

- As of April 2023, the unemployed claimant count⁴ in the ward was 1,195, representing 10.6% of the local working-age population (the borough average was 6%)
- At February 2023, 3,061 households (including working families) were claiming Universal Credit (43.9% of all households in the ward). This compares with a borough average of 29% on Universal Credit.

Economically active people

In 2021, the estimated proportion of people aged 16-64 who were in work or looking for work (the economically active) was lower than the borough average, at 62.0%. The proportion in employment was 55.4%.

Deprivation score

The Indices of Deprivation 2019 – published by the Ministry of Housing, Communities and Local Government⁵ measure **relative** deprivation in neighbourhood areas (Lower Layer Super Output Areas). These are ranked and sorted into deciles of relative deprivation.

Edmonton Green is the most deprived ward in Enfield, and among the most deprived 10% of all wards in England.⁶

² Aged up to 19 years (includes 16-19 year-olds who are in training or non-advanced education – ie categories for which Child Benefit would be payable assuming no other disqualifying factors)

³ Relative low income: equivalised household income is less than 60% of the UK median for that year. Absolute low income: equivalised household income is less than 60% of the UK median for the period 2010-2011.

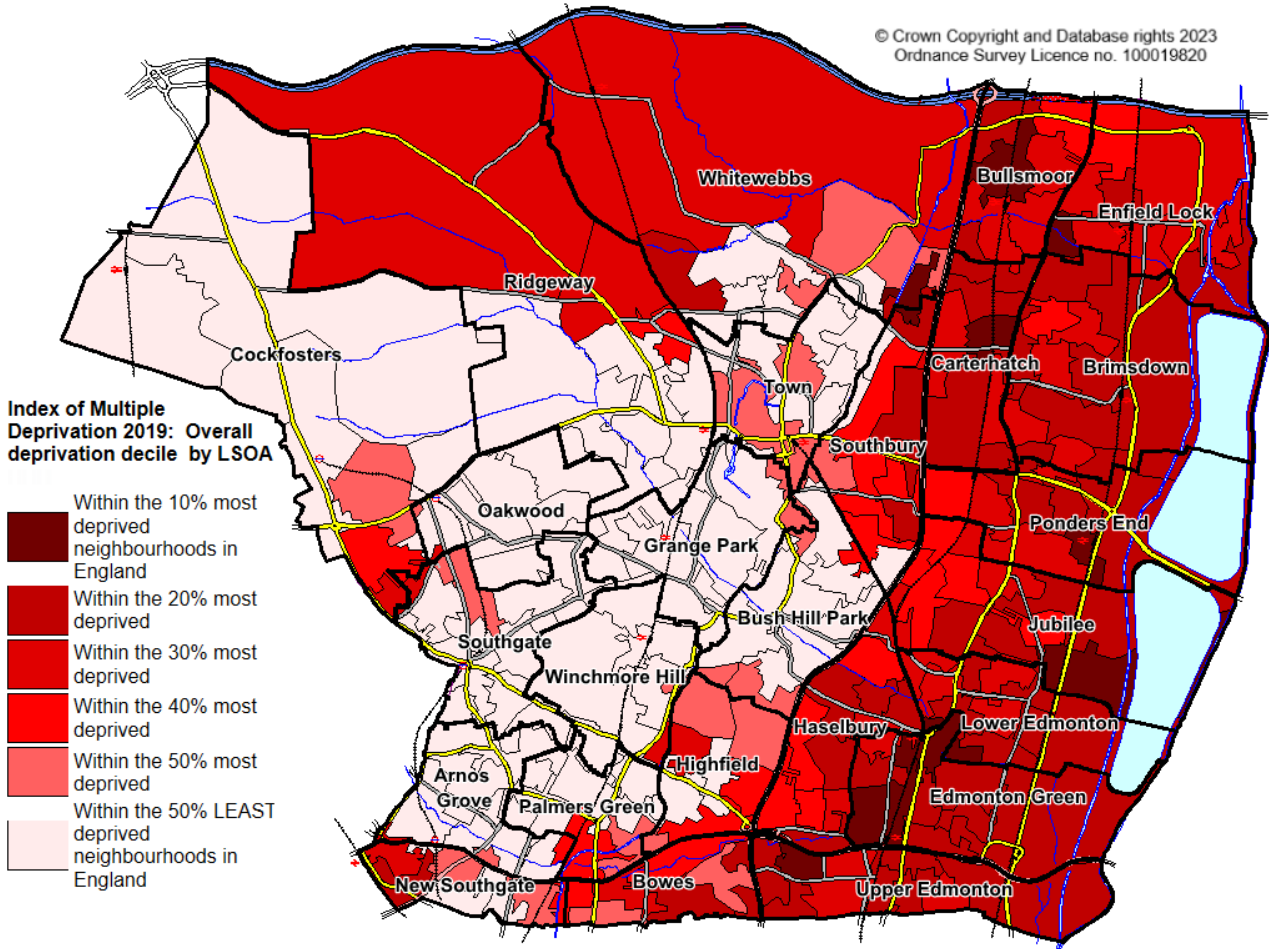

⁴ The 'narrow' measure of unemployment: the number of people receiving either Job Seekers' Allowance, or unemployed claimants of Universal Credit who are required to seek work.
