

Ward Profile: Highfield 2023

Highfield is a new ward (from 2022), bordered by the wards of Winchmore Hill, Palmers Green and Bush Hill Park. It is situated towards the south of the Borough, also sharing borders with Boves to the south and Haselbury to the east.

It is covered by postal districts of N9, N18, N21 and N13.

The ward is split between the parliamentary constituencies of Enfield Southgate and Edmonton

Ward Profile: 2023

This profile is intended to provide a guide to the demography, social and economic data and Council facilities in the ward.

At time of writing, not all data is available at ward level for the new ward boundaries (effective from 2022). Some statistics appearing in this document have been aggregated from smaller statistical geographies on a 'best fit' basis.

The profile has been collated using the most up to date local-level data relating to 2022 as far as possible. A variety of statistical sources have been used in its compilation.

Ward Councillors

Population

Based on the [2021 Census](#), the ward population is estimated to be 9,261.¹ The population of the area decreased by 1% from 2011 to 2021.

Age Profile

The ward has relatively low numbers of children and younger adults and more older residents when compared to the borough average. Female residents outnumber males in most age bands after 25 years (see table bottom).

¹ Census 2021 population totals vary in accordance with geographies and characteristics being measured: eg the sum of all-age ward populations do not necessarily match the published borough total, and the sum of age band totals do not necessarily match ward and borough totals. This has occurred owing to changes in statistical suppression practices used by the ONS in order to release Census data more quickly. Differences are small and have very little effect upon calculations of proportions.

Socio-Economic Factors

Key features:

- The ward has relatively high numbers of adults in managerial and professional occupations.
- Household incomes are higher than the borough average, with relatively low numbers of households in poverty.
- 5.6% of adults are on unemployment benefits and 23.6% of households in Universal Credit – lower than the borough averages
- Deprivation Indices: the ward has a mixture of high and low deprivation levels – it is among the 40% most deprived wards in England.
- Proportions of households in fuel poverty are slightly below the borough average (13.6%, compared with 13.8% for the borough)
- Crime levels are lower than the borough average
- Health: at the 2021 Census, 83% of residents reported Very Good or Good health
- Higher than average numbers of households are owner-occupiers.
- Levels of educational attainment are similar to that of the borough population in general.

Socio-economic classification

Occupational groups are taken from the 2021 Census. The table below indicates the occupational profile of the ward, compared with the borough in general.

Low Income Households

Data from CACI Ltd indicate that – as at 2023 – households in the ward have an average (median) household income of around **£50,000 per annum**, which is higher than the borough and London averages.

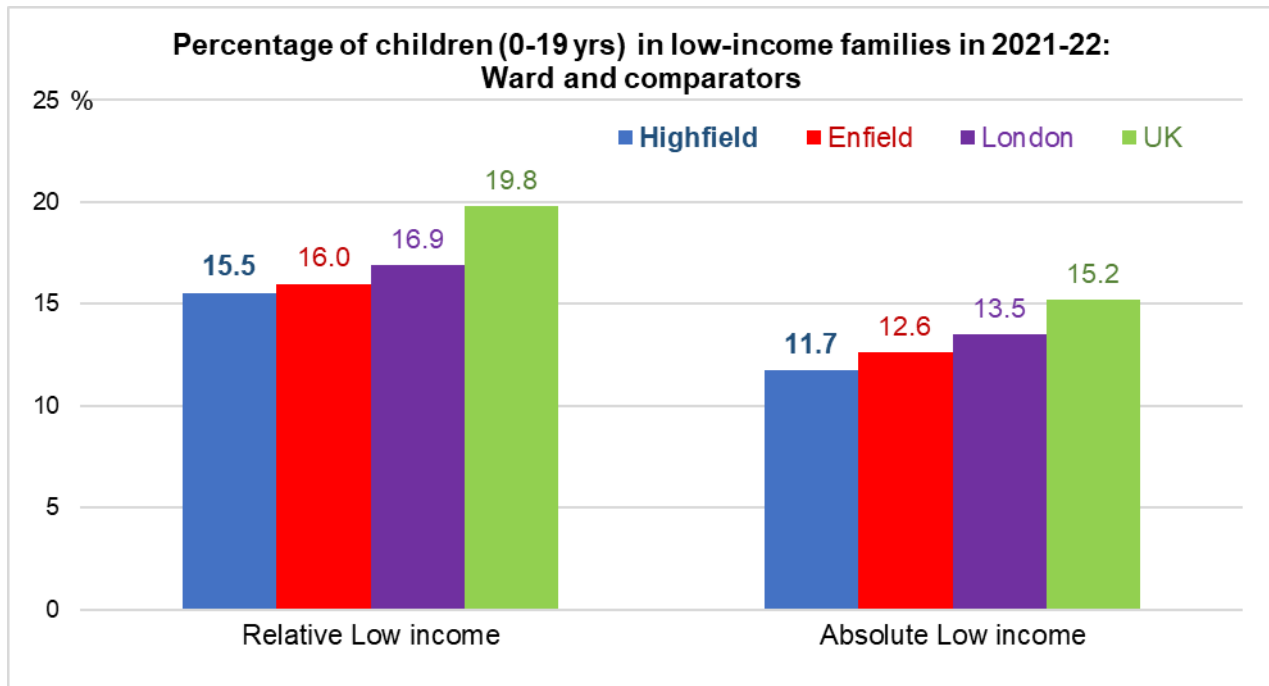

- 12.5% of households have a household income of less than £20,000 per annum – the borough average is 17.3%
- 6.9% of households have an income below £15,000 per annum – the borough average is 10%

Highfield

Statistics from the Department for Work and Pensions indicate that, in 2022:

- 345 children² in the ward (15.5% of the total) were living in families with Relative low income, and
- 259 (11.7%) were in families of Absolute low income³.

The proportions of children in poverty compared with local, regional and national averages are shown in the chart below.

Benefit Claims

- As of April 2023, the unemployed claimant count⁴ in the ward was 330, representing 5.6% of the local working-age population (the borough average was 6%)
- At February 2023, 809 households (including working families) were claiming Universal Credit (23.6% of all households in the ward). This compares with a borough average of 29% on Universal Credit.

Economically active people

In 2021, the estimated proportion of people aged 16-64 who were in work or looking for work (the economically active) was higher than the borough average, at 72.1%. The proportion in employment was 66.7%.

Deprivation score

The Indices of Deprivation 2019 – published by the Ministry of Housing, Communities and Local Government⁵ measure **relative** deprivation in neighbourhood areas (Lower Layer Super Output Areas). These are ranked and sorted into deciles of relative deprivation.

Highfield is among the most deprived 40% of all wards in England.⁶

² Aged up to 19 years (includes 16-19 year-olds who are in training or non-advanced education – ie categories for which Child Benefit would be payable assuming no other disqualifying factors)

³ Relative low income: equivalised household income is less than 60% of the UK median for that year. Absolute low income: equivalised household income is less than 60% of the UK median for the period 2010-2011.

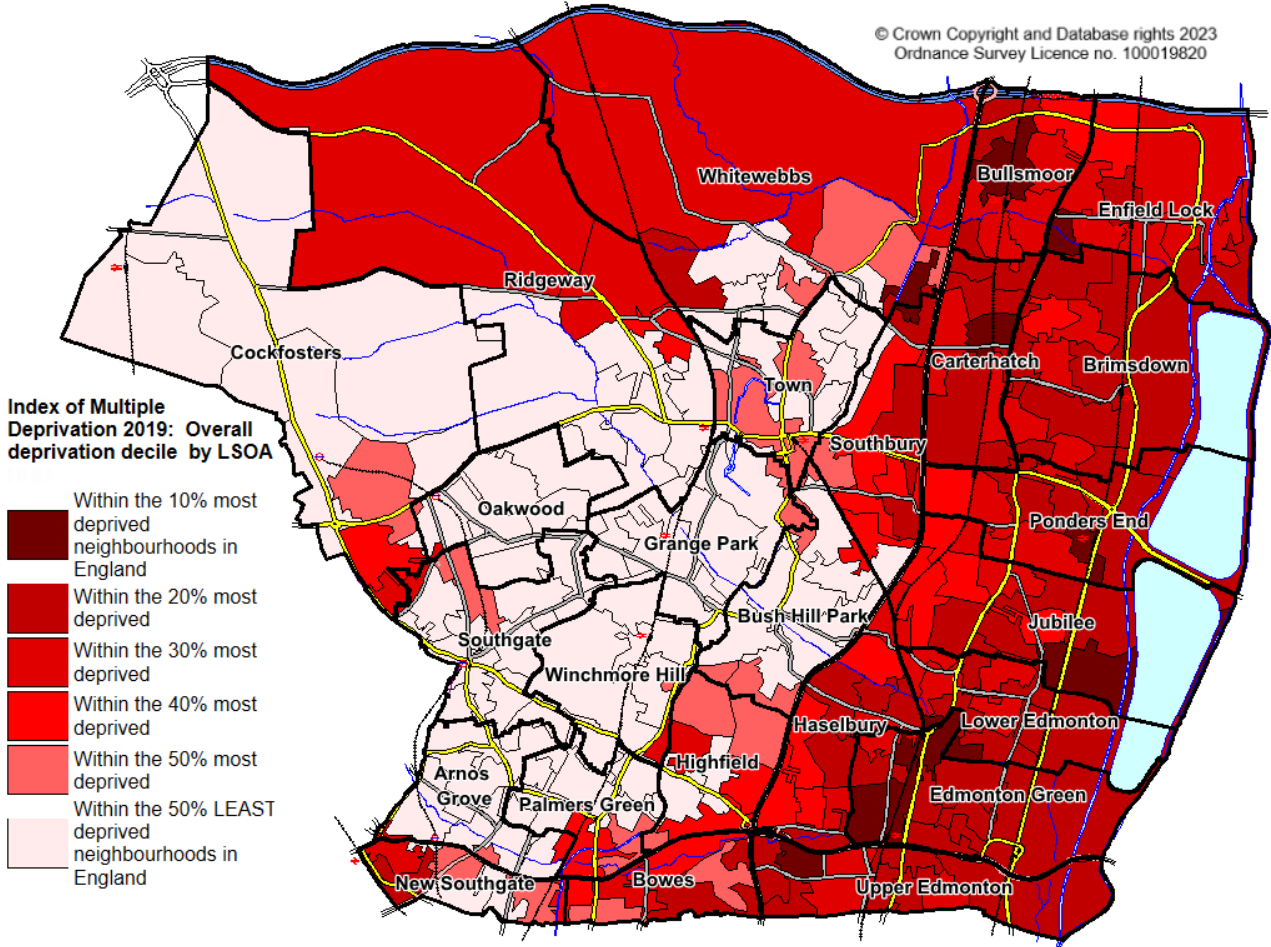

⁴ The 'narrow' measure of unemployment: the number of people receiving either Job Seekers' Allowance, or unemployed claimants of Universal Credit who are required to seek work.

Fuel Poverty

Best-fit geographic analysis of government statistics⁷ reveal that, as at 2021, 13.6% of households in the ward were in fuel poverty. This proportion was lower than the borough average, but higher than regional and national averages (13.8%, 11.9% and 13.1% respectively).

Crime

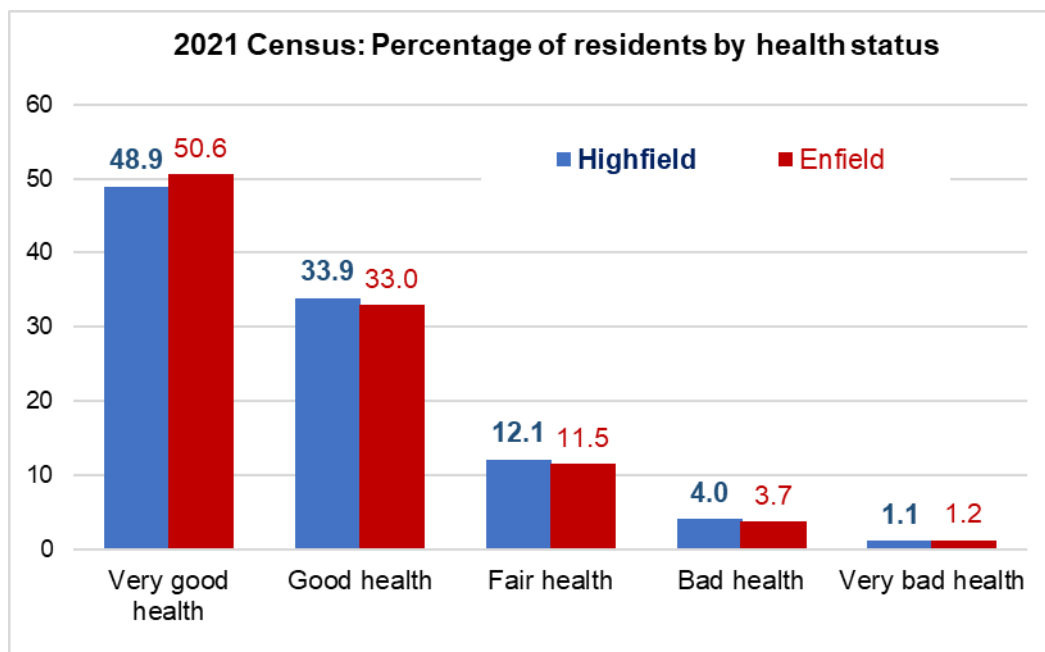

Metropolitan Police data for the period April 2022 to March 2023 indicate that:

- There were 552 notifiable offences in the ward – a fall of 6.6% on the previous year.
- The crime rate was 59.6 offences per 1,000 population – lower than the borough and regional averages.
- The most numerous offence categories were Violence Against the Person and Vehicle Offences.

Health

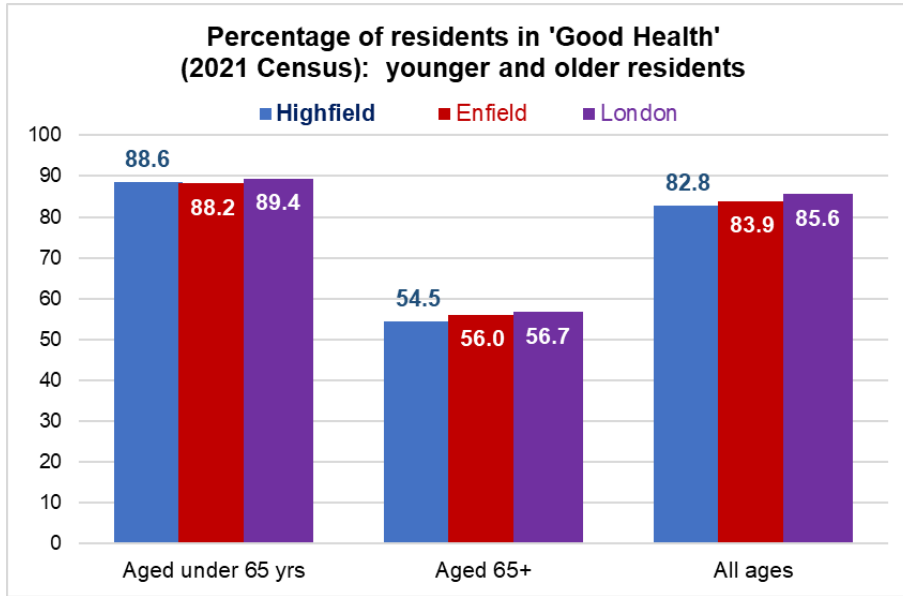

The 2021 Census asks residents to describe their general health. The chart below illustrates the response:

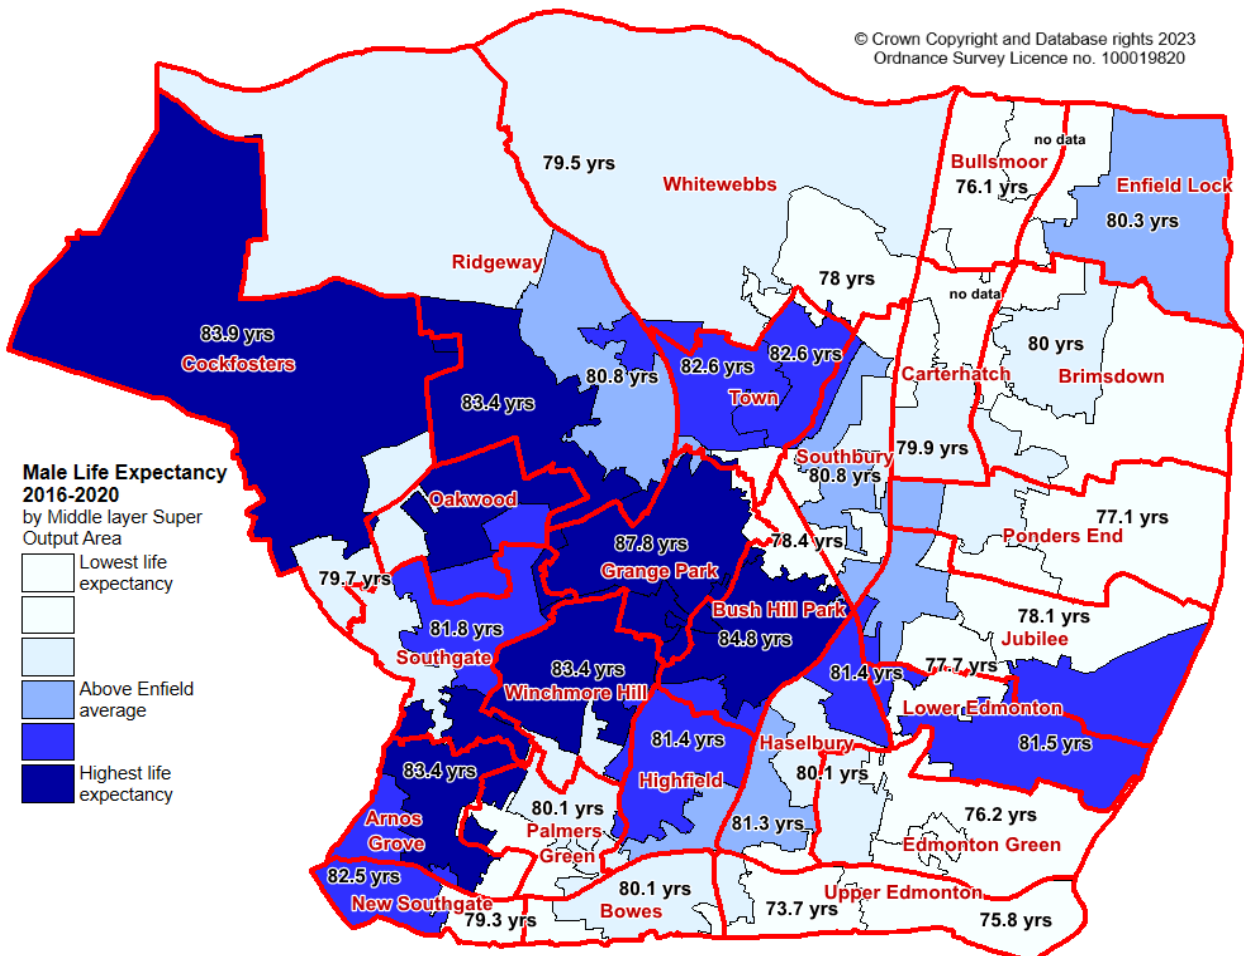

⁷ Published by Department for Business, Energy & Industrial Strategy

Highfield

Ageing in a state of good health is obviously a desirable aim where possible, and the Census provides a snapshot of the health of people in different age groups. A separate analysis divides the population into those whose health is broadly 'Good' and those for whom it is 'Not Good'. The chart below details the percentage of under 65s and over 65s who describe their health as Good.

Life Expectancy information at ward level is not yet available for the 2022 Ward boundary geographies. However, data are available at Middle Layer Super Output Area level - another census geography with boundaries that do not match those of wards. These are mapped below: the darkest shaded areas have the highest life expectancy at birth.
