

# Emotional Literacy Support Training in Enfield Services

**Join the growing network of professionals trained to support children's Emotional Literacy development. After a six day training course, you will plan, deliver and evaluate individual and group interventions for pupils with Social Emotional Mental Health needs. You will also receive half termly supervision from the EPS, and attend a termly Enfield Network Meeting.**

*"The training is allowing us to approach our young people's needs with a multitude of different techniques. I can honestly say that this is the only training that I have looked forward to as much as I have!"*

**Feedback about the training course**

*"Children who've had this intervention are more able to notice different feelings and behaviours- they have more understanding and are more able to ask for help."*

**Feedback about the impact of the intervention**

The Educational Psychology Service will be delivering Emotional Literacy training in the Spring term. There are 32 ELSA training places available for the 24-25 academic year. To find out more, see the brochure, or join the EPS for an information session:

Please sign up for the information sessions [here](#)

If you already know that you'd like to train one or more staff member in the next cohort, you can express your interest directly [here](#)

**Tuesday 27th February  
2:30-3:00pm**

Future sessions to be announced. Please use the sign up form to be invited to future sessions if you are interested but cannot make it to the session on the 5th February.
