

---

As an Enfield resident I strongly oppose the proposals to build on the Green Belt in North West Enfield.

For the past twenty-seven years I have lived close to the Vicarage Farm area in Hadley Road and I moved there from Winchmore Hill because I wanted to be away from the congestion that was overtaking the once village like area. My wife and I wanted to enjoy our retirement in an open and healthy area where we can take walks in pleasant countryside and unpolluted air.

The proposition to destroy this environment by continuing the urban spread is heart breaking and quite unnecessary. The ridiculous reasoning that because North East Enfield is now overdeveloped justifies doing the same to North West Enfield.

Please reconsider the lunacy of this damaging proposal.

Sincerely yours
