
Dear Enfield Council

We are owner/resident on nearby Flat 2, The Criterion, 35 Camlet Way

We would like to express our **strong objection** to this proposed plan

We object for Many reasons including

Destroys part of green-belt

Surrounded by conservation areas, also damaged as a result

Kills wildlife and biodiversity

Very Increased Traffic, including during construction

Incredibly Heavy congestion on single road access to Barnet or Cockfosters

No public transport / bus now, let alone with new development

No supporting infrastructure to support

Increased flooding risks

Totally wrong location for this type of development

Build-up plan does not match residential build-up of current area

Increased Pollution

Increased security / crime risks, including accident risks during construction

Does not match surrounding area residential area

Driven by financial developer gain.

The Trent Park development is a terrible development, like a “Brookside” TV programme “housing estate”. We dont wish the same result !

Decrease local property values

Regards
