Dear

My husband and I moved to Oakwood in 1992 – some thirty years ago – from N5 (Highbury). \*

We moved to enjoy the Green Belt. Jim and I enjoyed the birds in Trent Park, including yellowhammer, and treecreeper, and goldfinches. We fed the birds in our garden – a satellite of Trent Park.

Getting a bus from here into Enfield, the fields play an important part, both the sight of them and to separate the 2 settlements.

More recently, , my sister and I explored the Green belt by foot: including walking by the Stream which runs parallel to Enfield road. We also explored Hadley Wood.

I am therefore horrified at Enfield Council's draft local plan, e.g. for Vicarage farm and for Hadley Wood, and also for Crews Hill

\* (Islington council has only one park – Highbury Fields)

Draft Local Plan
