

To whom it may concern,

I am saddened to have to write this email after receiving a letter from Enfield Council Local Plan regarding different types of development to be located in the borough.

I can only say how much I am against destruction of any greenery in the borough, so please stop allowing the greedy developers to destroy our nature. I am opposed to any future developments in the borough and support of improving our nature and wildlife. Please do Remember "Nature doesn't need us we need the nature".

My best regards to those who care for our nature.
