

Dear Sirs. I have been made aware of the Sainsbury's site on Green Lanes being earmarked as a site for potential mass high rise development. We are against this for the following reasons

- Over population with no supporting infrastructure incl. doctors, schools, supermarket, etc
- High rise out of keeping with area and irreparably changing the historical character of the area
- Loss of green space; an area for families and leisure which contributes to our health and wellbeing
- Loss of local people from the area if you trash what makes Winchmore Hill unique and different
- The sneaky way you seek to get planning and other material initiatives through without proper consultation

Look forward to your feedback on this
