

Please accept my views below with regard to the Draft Local Plan.

Our forefathers gave us a precious resource when the Green Belt was established and it has been enjoyed, cherished, and sustained for several generations for good reasons. If it goes, whether 'all at once'

or 'bit by bit' it is gone forever. I do not believe nibbling away at the Green Belt like this is the answer to the nation's housing needs.

Please find other solutions.

Yours sincerely
