

Enfield Council have asked for residents views in a "consultation" and have produced an A3 glossy leaflet that has been put through our letterboxes probably at quite some cost! But this glossy tells us precious little other than Enfield Council have a "Local Plan", where is the summary for residents to get a insight as to what the plan is proposing? The link in the glossy takes us to 413 pages of data and a complex map which is just unreasonable for the average resident to have the time and level of understanding to take in effectively.

Is there a summary of what is being proposed that I have missed? If so where do I find this? If there is not a more resident friendly summary, why not?
