

Dear Sirs,

I have lived in Hadley Wood for 48 years and am a Member of the Hadley Wood Association.

I chose to live here because of the green belt and trees which contribute to the health and beauty of this area. We are so constantly being told about saving the environment and Climate Change. The risk of flooding would be very aggravated by the building on this green space. What about the provisions of more Doctors, Schools, Water and Sewage problems? Please don't destroy what is good just for an easy option because once this is lost it can never be regained.

I will not believe that responsible Councillors would wilfully lose all this.

Please do not grant permission for this build.

Thank you
