

---

i have no objection to this plan if only it was for the poor and needy enfield residents who have spent their lives in the borough.

however this whole plan is thought of and designed solely for the thousandds of migrants who you have invited to the borough for your selfish political ambitions.

the beautiful edmonton green that was once thriving and flourishing is now a hive of illegal imigrants from romania.

you know full well it has now been called little romania yet still you allow them to flood the area .

north london is the new eastern europe., all the while you ignore and neglect the poor and needy.

you shouyld be thoroughly ashamed of yourselves.

the sheer number of foreign shops and restaraunts that have popped up at the cost of long standing businesses like shops and pubs.

you and your family have treated london borough of enfield like a family business and skimmedd an creamedd from it every penny you can.
