

---

Dear sir / madam,

I am a homeowner in Enfield, EN2 and I fully object to the plans for development to be built especially on our green belt surrounding Enfield.

I do not agree with the description of nature on land that houses so much wildlife and preservation of peace and tranquility.

I understand the planning for destruction sites include:

- Eight horticulture nurseries in Crews Hill, which campaigners say should be saved to provide local jobs and locally produced food.
- Several large areas of productive farmland, vital for local food production at a time of food insecurity and climate emergency.

I oppose to this and especially: Whitewebbs, Cockfosters and Crews Hill developments.
