

---

Good day, the very idea of building houses (or anything else) on the historic Enfield Chase green belt is unthinkable. Whoever came up with this disaster of a plan should be shot. Likewise, destroying the nurseries at Crews Hill would be a disaster to the local economy. These parts of the plan should be completely removed and if more houses are REALLY required then greater thought should be given to finding an appropriate site or sites, because Enfield Chase and the Nurseries are clearly not the place.

Thank you
