

---

I am writing with regards to the plans to build on GREEN BELT from Enfield Road up to Hadley Road. Simple question really. WHY!!!!????? What are you trying to achieve apart from ruining West Enfield. These areas are vital to the environment, wildlife etc. And for local people's well being. I gather that the majority of council members do not live in this area otherwise they would appreciate how peaceful and beautiful it is. Is it jealousy perhaps????? You don't have it so let's take it away from the people that do. We chose to live here due to working hard and saving so we could enjoy some open spaces when we're not working hard!!!!

All you will achieve is to build the area up causing more congestion, noise, pollution and over crowding. It will become a concrete jungle and anyone with any sense who can afford it will move out so will local money that we put into shops restaurants etc.

It is shameful that as a labour council you want to build and build with no regard for anything or anyone except your selfish corrupt back handed ways.
