

---

Here we go again.

To whom it may concern.

No more Development.

We moved into Southgate in 1982, a long time ago. Why did I leave Stoke Newington and move in to this area, Several reasons.

At the time Schools in the Hackney Borough was to say the least not very good. So education for us was a priority. Enfield had plenty of very good Schools for all ages.

The area was bordering Green Belt with plenty of tree lined Streets.

Highlands Village was a hospital plus convalescence center Chase farm hospital was at hand with its A&E. The Southgate area was spotless. The council taxes were very fair and we had a great service. As the years pass by the service of the Council has deteriorated.

Our tree lined Streets are not as clean always see rubbish left around. Our paving stones are a disgrace some Streets were repaved years ago but as usual ours were just left as they ran out of money.. Each time a new council has come to take over things get worse.

Council tax goes up but bin collection goes down. At one time they told us due to declining population we will be closing Schools and they did. So what did they do with the sites build housing. What do people who move in to these areas have, children what do children require???? Schools. So we then have over crowding in Schools. Why do we need more housing? Maybe because councils have sold off all the properties they had and now run short. It appears that councils just want more and more buildings to earn more council tax to waste more money and put 5% into their pensions. Hypocrites they say we want to save the Planet so they spend 50 million making bike lanes that no one uses. It does not come out of their pockets so they just spend spend spend. Why do we need to build more homes when we know that Enfield council had been buying up property out of London and rehousing people in places like Hertford. Cutting our Trees and grasslands will do more damage than good. We will need more Schools again brings more traffic more pollution more waste. . Personally I think they should do away with you lot. Get rid of the councils. Try getting in touch with anyone in the council you could go to outer space with Musk quicker than getting in touch with the council. Everyone complains,

As you can see I OBJECT to getting rid of anymore Green Belt lands.

Let us breath.
