

---

I live and have a business which has offices in Enfield I pay two sets of council rates. I am totally opposed to Enfield council proposal to develop green belt land in Enfield, If current plans for the development of these green spaces, I will move out of the borough and relocate my home and offices, with job losses else ware.

I move to Enfield many years ago for the green open spaces of crews hill, if this taken away I will relocate to a greener area and environment.
