

---

I'm very disappointed to hear that Enfield council are proposing to build a crematorium on Firs Farm playing field. This is outrageously wrong. It's not enough that the LTN has caused health issues in fox lane, if I'm not mistaken, I feel strongly against it. I hope that this will be thought about carefully before going ahead with the proposal. I have been a long standing Labour voter but I have to say I'm am so angry about this that I will not continue to support Labour in the future and I'm not the only One feeling this.
