

---

To whom it may concern,

I am writing to register my objection to a crematorium being built on Firs Farm. The wetlands are a beautiful, natural, wild space and is a sanctuary for many of us in the local area.

There is a strong community who volunteer to make the space as lovely as it can possibly be. My family and I spend our weekends there. It is peaceful and quiet.

A crematorium will bring additional cars, and with it, pollution, not to mention additional pollution caused by the crematorium both visually and otherwise to the surrounding areas.

I run around the entirety of Firs Farm wetlands for my exercise - it is a well-utilised green space for many of us. I oppose the building of the crematorium in the strongest possible terms.
