

---

Dear Sir/ Madam,

I am writing to object to the Draft Local Plan for Site SA45.

I live at 10 Greenbrook Avenue, Hadley Wood, London, EN4 0LS, resident since 2006.

The proposal to develop Green Belt land is irresponsible and ignorant. We are living in a time of obvious climate emergency and the priority of your Public Authority should be to protect the environment, not harm it. If this development goes ahead, critical biodiversity will be irreparably damaged.

Instead of contemplating environmental vandalism, you should focus on redeveloping brown field sites. There are plenty of these in the Borough.

I would appreciate provision of documentary evidence from you proving that you have thoroughly considered the environment impacts and the alternatives that are open to you.
