To whom it may concern,

I object to the above draft local plan, in particular Policy SP PL10, pages 80-87 and figure 3.11. This plan will lead to increased traffic and pollution which will in turn have a bad effect on people's health. Also, it will have devastating effects on any nature and wildlife inhabiting the Green Belt area. The increased traffic will also be a big burden to us and our existing neighbours.

This whole plan is very disappointing as vast areas of Green Belt area will be destroyed.

Please consider my objection.

Thank you and kind regards,
