

---

I write to oppose the Council's plans of taking away our beautiful green space at Firs Farm Wetlands for crematorium space.

A lot of hard work and a lottery grant was won specifically for creating this space for all people in the borough to use and enjoy. It is about the people living not the deceased and I am sorry if this sounds harsh but it is a fact. The loss of green space for our kids, the damage to the wildlife and the effect it will have on house prices in the local area also needs to be taken into consideration.

Please refrain from pursuing these plans and leave our beautiful wetlands alone.
