

---

I am emailing you to protest about the green belt being used for housing, and various other issues

The Spatial strategy (section 2.4)

3000 new houses regarding Chase par etc (policy SP PL 10 pages 80-87 and figure 3.11)

3000 new houses regarding Crews Hill (policy SP PL9 pages 77-80 and concept plan figure 3.10)

160 homes Hadley Wood (SA 45 land between Camlet Way and Crescent Way Hadley Wood page 364)

Rammey Marsh (SA52 page 372)

(SA 54 page 374)

Big expansion regarding Spurs (SA62 page 383 and SP CL4 pages 277-279)

Palace gardens re 26 floors of flats

This is totally unacceptable to use green belt, when there are many empty properties that could be used as well as brown fill land

This pandemic has shown that many people would prefer to work from home, thus the empty office buildings could be turned into dwellings for folks

London is overcrowded as it is not enough infrastructure as it is, why cant people be placed more up north/Scotland where land is in abundance?
