

---

I have lived in Hadley wood for the last 20 years and I value all the green spaces within Hadly Wood and was drawn to the locality as it is surrounded by greenbelt which protects the special character of the area. I therefore object to the proposed site allocation which would allow the development of 160 homes on greenbelt land.

1- The plan will destroy our unique heritage landscape and destroy a valuable part of the greenbelt including the historic significance and existing Greenbelt boundary which should be retained and protected and future development and land use changes should be resisted.

2- wildlife and biodiversity would be harmed, building 160 homes is an inefficient use of valuable land that serves an important purpose and contradicts Enfield green policies.

3- This will also increase the flood risk in other parts of Hadley wood. Parts of the land are flood zone 3. Local sewers/flood defences are already insufficient.

4- Wrong location for a sustainable development, no sufficient public transport, no secondary school, no local GP, no post office and oversubscribed primary school.

Can you please keep our beautiful green belt area and status and remove this proposed site allocation from the next edition of the local plan.
