

---

I object and I'm deeply concerned with the following policies, SP PL10, SP PL9, SA52, SA54.

I can't believe you are considering building on green belt land, you turning our Green borough into an inner city polluted city.

I don't think spending £50m+ on a cycle lane is going to stop 6,000 + new residents driving cars.

We don't have enough Police as it is, Enfield is among the top 20 most dangerous cities in London.

You are permanently damaging this beautiful borough.

Kind regards
