

---

I wish to object most strongly to Infields proposed Draft Local Plan which will see The Borough turned into

One great housing estate which is not necessary. The amount of housing proposed is just another way of getting the unemployed

and those on housing benefits into the west side of Enfield and destroy what is left of the Green Belt .

Once upon a time many years ago before the Labour Left got into the council Enfield could boast that Crews Hill was one of the largest Garden Centres

in the whole of the UK. Now it is proposed to destroy what is left so that it is replaced by Housing. that is based on figures that might never come true.

Please Enfield do not destroy what is left of Enfield and rethink this crazy plan . So far Infields policy's have turned Enfield town into a

nothing more than coffee shops and restaurants . We deserve better .
