

---

I have just read about a proposal to build a crematorium in the heart of firs farm wetlands. I am absolutely appalled that this is even being considered. It is such as asset to the community, for nature lovers, to sports people and to people who generally want to enjoy the peace and tranquillity it offers. I was proud of this space and have taken many friends to see it so they could see first hand what the community could build. We should be showcasing the area to other boroughs , not dismantling it. Please reconsider the proposal .
