

---

Dear Sirs,

I wish to object to the building of a Crematorium at Firs Farm Wetlands.

I feel it is a most inappropriate site for a crematorium being so close to local housing and a school.

The Firs Farm Wetlands has become the focus for many local people during the Covid 19 pandemic both for exercise and leisure. We place high value on the wildlife that is attracted to the area now and the diversity of pondlife and plant life which is beginning to mature.

I feel a Crematorium would spoil this with it's pollution and emissions and deprive local residents of the community hub which had been planned with a view to increasing educational, leisure and sporting activities.

I object very strongly to this plan and would like my objection to be recorded as such.

Yours sincerely
