To whom it might concern

The Wetlands in firs farm it's been my family's go-to exercise space during lockdown and continues to be somewhere that I take my kids most weeks either to play football, ping pong, climb trees, have a picnic, a new Eco-club just started up on Sunday mornings and so, so much more!

As member of this community, I feel it is important to preserve the green space around us, so I do object to this plans and join the group that is on a mission this morning to save Firs Farm!
