
Further to my previous email objecting to the above plans DM BG16 in the Draft local Enfield Plan (Site ID SA59) I can think of many reasons why I oppose and reject these plans but one of them is that Firs Farm Wetlands is a vitally important piece of green land which is important for the health and well being of the local community . Not to mention increased traffic , funeral cars passing old people's homes , jeopardy of the flooding facilities that we now enjoy to mention just a few .

I strongly object to these plans and would ask you to kindly look elsewhere for a suitable site for your crematorium .

Thank you
