

---

As a local resident I use the wetlands at Firs Farm daily for walks and runs. It is a great well-being space that people use to relax, exercise and gather with family and friends. There are so many places that you could put a crematorium rather than in one of the playing fields. We are losing green space in Enfield through houses being built and now this proposal. I urge you to leave this well-being space for the living and move your crematorium elsewhere. Local residents need to have this green space with its ponds and tennis courts.
