
With reference to the proposed planning :-

Policy SP PL 10, pages 80-87, and Figure 3.11);

(Policy SP PL9, pages 77-80 and Concept Plan Figure 3.10);

(SA45: Land Between Camlet Way and Crescent Way, Hadley Wood, page 364);

(SA62 page 383 & SP CL4 pages 277–279);

I wish to strongly object to the above proposals. The catastrophic effects on flora, fauna and wildlife is immeasurable. The individual eco systems will be destroyed and the results will be devastating.

All these areas are used constantly through the seasons by families , ramblers, hikers, dog walkers etc I know this for a fact as I live close to one of the areas where the proposed plans are set.

With regard to the recent emphasis on mental health I find it unfathomable that Enfield council are considering destroying these havens which in these times of pandemic have been the saviour for many peoples mental health issues.
