

---

I am against the green belt being turned into housing if Enfield Council allows that, that will be the end of our green belt as the council will just carry on letting homes be built on more open spaces.

Enfield Council has already messed up our borough with the cycle lanes & road closures. I would love to know what the pollution figures are for Green Lanes & Alderman's hill & the Southgate area.

As usual, I think that these consultations are a waste of my time & taxpayers' money as Enfield Council will go ahead & do as they please, ignoring the resident's views.
