

---

I have been a regular weekly visitor to Firs Farm Road since 2011 as a carer within my son's family (271 Firs Farm Road).

During these past years I have always valued the sheer open facilities offered by the Enfield Council throughout the entire Firs Farm Wetlands & Playing Fields when I am there with my son's children.

It is used by many children and adults & families, and, I fully understood their importance when both Covid Lockdown's were eased and Enfield residents were able to go out and about again.

To lose the playing field involved for the proposed Crematorium development would in my opinion be wrong. The residents of Enfield would be the losers unfortunately.
