

---

I am writing to object to the following policies: SP PL10, pages 80-87, and Figure 3.11; Policy SP PL9, pages 77-80 and Concept Plan Figure 3.10; Policy SA45: Land Between Camlet Way and Crescent Way, Hadley Wood, page 364; Policy SA54, page 374; and Policy SA62 page 383 and SP CL4 pages 277-279 – all of which propose the dedesignation of Green Belt for housing and other purposes. These sites are part of historic Enfield Chase, which is unique in the southeast and played an important role in the development of Enfield. It is a rare and valuable landscape asset and its loss would cause permanent harm not only to the Green Belt, but also to the very character of the borough.

Whilst it's recognised that there is a local housing need, consideration must be given to the impact this development will have on the local environment and infrastructure.

A development this size and associated vehicle ownership will have a huge impact on traffic and pollution levels, which at present is attributed to almost 9,000 deaths annually in London. Additionally it will have an impact on the local wildlife.

The loss of this land will have a negative effect on the mental and physical health of the local population. This is such a precious resource, which must be protected.

I believe there are not enough education and health resources locally to support a development this size especially with the recent downgrading of Chase Farm Hospital and oversubscribed schools locally.

As a concerned local resident, I do hope our elected representatives will not support the proposed development.
