

---

I visit my auntie who lives in Hadley Wood. They have a lovely view behind their house and big green open space which was one of the reasons why they bought the house. I value all the green spaces within Hadley Wood when I go for walks around the area and I therefore object to the proposed site allocation, which would allow the development of 160 homes on Green Belt land.

The Green Belt must be protected and conserved in North West Enfield where it serves vital purposes including separation from Barnet and Potters Bar, helping air quality in the borough and biodiversity. It cannot be right to plan to destroy this Green Belt, directly contrary to all green and climate change policies. We should be protecting and conserving our remaining green spaces now and for future generations.

Hadley Wood is a car-dependent location, and key roads operate at over 100% of capacity. Building 160 new homes will not help this situation.

Can you please therefore remove this proposed site allocation from the next edition of the Local Plan and retain the green belt status for the land. I look forward to your response.
