
I have lived in Hadley Wood for all my life. I love the area with its wide green streets and expansive open spaces. Over lockdown I started to walk all the streets including Waggon road and Barnet Road and its from there that you can appreciate the beautiful views across the landscape across Hertsmere, Barnet and Enfield which culminates into this field. It is therefore not surprising that Herts County Council have sought to protect this valuable landscape within the Hornbeam Hills South Area of Special Character, which Enfield Council endorsed. It's not clear to me why the council have sought to now ignore this and remove the land from the green belt and allocate it for development.

I therefore object to the proposed release of this meadow in Hadley Wood from the green belt and its draft allocation for housing development on the following grounds.

The Local Plan does not prioritise all the brownfield sites in the

Borough. Surely all the Councils own development land at Meridian Water should be included in this 20 year plan. Only once all the brownfield land has been exhausted should the council seek to release green belt sites. This is not the case as the Council have chosen to build on a Green Belt site with poor local connections and amenities instead.

The meadow makes a significant contribution to the purposes and openness of the Green

Belt. The Hadley Wood Heritage and Character Assessment notes that the site provides "important views" and the landscape "acts as a buffer separating Hadley Wood from other urban areas". No account has been taken of the fact the site forms part

of the Hornbeam Hills Area of Special Character.

This allocation destroys a valued and valuable part of the Green Belt. The council's recent Characterisation Study refers to the area as "a special area of landscape character which is a major asset for the borough. It states "It is of both landscape and historic significance"; and "The existing Green Belt boundary should be retained and protected, and future development and land use changes resisted". This has been completely ignored.

4) This is simply not a sustainable location. This is not a sustainable site. It has poor public transport links with a PTAL 1a/b. Despite there being a station close by, the next stops either side of Hadley Wood are Potters Bar (Hertsmere) and New Barnet (Barnet). You cannot get to anywhere in the Enfield Borough from this station. The bus stop outside the station only serves High Barnet, which again is outside the Borough. Any development scheme on this land will be wholly reliant on cars. There is no supermarket in close proximity, no GP, no secondary school, no post office, very limited local employment opportunities. All these facilities are only accessible by car, which goes against the Climate change Emergency declared by the Council.

Can you please therefore remove this proposed site allocation from the next edition of the Local Plan and retain the green belt status
