

---

I am a resident of Palmers Green. I am writing to inform you about my views regarding the proposed plan to build a crematorium in the Firs farm wetlands. I completely object the idea and would like to request you to remove all references to firs farm wetlands from policy SP CL4.

The wetlands has become a very important part of our lives. As a family we use it regularly for sports and picnics. It plays a vital role for our HEALTH AND WELLBEING. It contributed immensely to come out of lockdown stress and depression. The wetlands is an absolute asset to us as a community and we would not like to lose it at ay cost.

It will affect traffic, the effectiveness of flood alleviation provided by Firs Wetlands which Enfield council has spent more than £1 million. It will also jeopardies all the projects undertaken by the local community.

This proposal is going to affect my family and thousands of other families adversely in a lot of ways. I call on the council to remove all references to Firs Farm Wetlands from Policy SP CL4.
