

---

We are horrified at the proposals to allow development of green belt land. This is part of the heritage of this country and we should be preserving it for future generations. We are a small country and our green spaces are precious, particularly here where Londoners can enjoy being in touch with nature.

Some of the land you wish to destroy is historic forest. Once it's gone, it's gone. Cliches but true.

With the pandemic and home working building new homes in "commuter" areas is pointless. Families are moving away and not just to the outskirts. There will be plenty of spare housing and spare offices to convert to housing.

The developers are there to make money not to solve the housing crisis. Do not allow this destruction just to line your pockets too Enfield Council.

We love Trent Park and Crews Hill and treasure the countryside there. Leave it in peace! Stop the destruction of our green space.
