Please take this email as record of my objection to Enfield Council's draft policy DM BG16 in the Draft Enfield Local Plan. This allocates Firs Farm Wetlands (Site ID SA59) as a site for burial and / or crematorium use.

I strongly oppose this policy as this is a beautiful conservation area and this would damage the area for local people who use this area for health and well-being every single day. There are also countless animals that live on the wetlands whose home would be destroyed.

Surely there are other locations for the site which does not involve destroying part of a nature reserve?

I call on the Council to remove all reference to Firs Farm wetlands from Policy SP CL4.
