

---

I have lived in Hadley Wood for the past 36 years and been a Member of the Hadley Wood Assoc for most of the time.

I moved to Hadley Wood from further into Lodon, because of it's location close to the Gree Belt.

Your proposal to build 160 homes on the Green Belt ajacent to Camlet Way is unbelievable and I am TOTALLY AGAINST IT.

The Green Belt was established to separate each built up area from the next. To consider distroying this site is contrary to all green and climate change policies.

If the proposed development were to go ahead, it would destroy our unique heritage landscape and deprive the many walkers and cyclist who use it regularly basis.

Apart from the above Hadley Wood does not have the inferstructure to sustain such a development. There are insufficient schools, doctor's and dentist's surgeries, shops within walking distance of the development and the bus and rail conections are minimal and go to the wrong areas. To live in Hadley Wood one needs a car to have the essential access one's needs.

Because of the above reasons and many other that have been raised will you kindly withdraw the proposed deveopment lan for the 160 house next to Camley Way.
