

---

Whilst I appreciate extra housing in Enfield is necessary I feel that the speed and amount proposed is completely overwhelming to an already very crowded borough. Specifically I would object to building any large estates on greenbelt site, the building of apartment blocks on station parking and any obtrusive construction in Enfield Town shopping precinct. I am fully appreciative that the precinct needs a big makeover to remove the monstrosity which is there at present but any replacement must be sympathetic. The other problem I have with any future housing is the infrastructure to support the increased population i.e. schools, shops, doctors and all other facilities, where is this all coming from.
