

---

I'm writing to express my objection to the building of a crematorium on the Firs Farm wetlands.

The wetlands have been an absolute life saver for me during the pandemic - it has been so important to have access to green space for both my physical and mental health. I see so many people of all ages enjoying the beauty of the area and using it for various activities at all times of day.

It's heartbreaking to think of that no longer being available to us, not to mention the impact on wildlife that have been attracted to the area. And i'm sure the council has ploughed a lot of money into it to make it as beautiful as it is, so it seems a total waste of money into the bargain.

The pandemic has changed my working patterns and that of many others I'm sure. I will be going back to the office in October, but only for 2 days per week, so I'll be continuing to use the wetlands on my 3 days of working from home - if I can...

Please don't take it away from us.

I'd be grateful for any information on ways to make more formal objections
