Objectives to draft Local Plan SA32 Sainsburys Green Lanes p359 of the Enfield Local Plan.

Horrified to hear of this potential plan in building over 200 living accommodations on the Sainsbury's plot. This will be a devastating blow within the area let alone more pollution and stress for the local residents that rely on their local supermarket, especially the elderly.

This will impact on:

- The loss of a major supermarket in the area will force people to have to drive further. This would especially affect elderly and disabled residents and increase car usage on local roads
- No supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries, dentists
- With the Fords Grove car park going and 14% of car parking on Winchmore Hill Broadway having gone, this development will lead to a further loss of revenue to local shops leading to potential closures

Impact on local residents

- The increase in vehicles on the road from potential residents of this development, will increase carbon monoxide levels which will impact locals and especially school children at Highfields school

Environmental

- This development will lead to the destruction of habitat and woodlands – the site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders (poplars and oak trees)
- In 1986, the Secretary of State allowed planning permission for Sainsburys to be built with the condition that the green space was retained for community use
- The green space is especially useful for residents who live in the surrounding flats and do not have gardens
- The area is used by families and elderly alike, which contributes to the health and wellbeing of all residents of the locals
- This development will lead to an over development of the area given the recent and future developments along Green Lanes - Travis Perkins, Capitol House etc
- There will be construction vehicle disruption and increased building work traffic on a road (Green Lanes) already congested especially at peak times
- There will be an impact on the skyline of Enfield and not in keeping with the existing character of the area
- This will turn the picturesque Winchmore Hill area into an over populated cramped unattractive place to live in - potentially be an eye sore
- Lastly, you have are thinking of profit rather than locals well-being and the amazing heritage N21 has to offer.
