

---

I strongly object to more houses being built on Sainsbury's, Green Lanes. The area's utilities will not be able to cope. We can't get to see a Doctor as it is without more people and what about schools. It will increase the volume of traffic and pollution. We will have to drive further ourselves to another supermarket so even more pollution. The shops in Winchmore Hill will suffer as parking is already diabolical. Sainsbury's is so helpful to all of us living in the area making shopping easier with a large parking space and cash machine. No one in the area wants more housing and more people.
