
I completely object to the proposed plans regarding the removal of the Winchmore Hill Sainsbury's and development of flats.

Below are my reasons. I would like my reasons to be carefully considered as there will be such a negative and destroying impact to the area. Again and again things are being done/built/put in place in Enfield that residents are completely against. This has such a massive impact on our daily lives which I believe to be completely unfair and almost life changing as we have lived in Enfield all our lives and the way things are at the moment with all these changes I will have to consider moving out the area this is of no choice of my own but more of being drove out the area. This is not right that we are never heard and plans go ahead regardless of what we say.

Please review this major decision and listen to the residents and all our extreme concerns. All these changes have such a negative impact on our lives and I cannot understand why as a council and people of the community you will be happy to allow for these things.

Local Facilities

- The loss of a major supermarket in the area will force people to have to drive further. This would especially affect elderly and disabled residents and increase car usage on local roads
- No supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries, dentists
- With the Fords Grove car park going and 14% of car parking on Winchmore Hill Broadway having gone, this development will lead to a further loss of revenue to local shops leading to potential closures

Impact on local residents

- The increase in vehicles on the road from potential residents of this development, will increase carbon monoxide levels which will impact locals and especially school children at Highfields school

Environmental

- This development will lead to the destruction of habitat and woodlands – the site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders (poplars and oak trees)
- In 1986, the Sectary of State allowed planning permission for Sainsburys to be built with the condition that the green space was retained for community use
- The green space is especially useful for residents who live in the surrounding flats and do not have gardens
- The area is used by families and elderly alike, which contributes to the health and wellbeing of all residents of Enfield

Other issues

- This development will need to offer housing in keeping with the character of existing housing in Winchmore Hill. However, Enfield residents require larger, affordable family housing which this development will not be able to offer.
- Inappropriate choice of site given the close proximity of existing traditional historical properties.
- This development will lead to an over development of the area given the recent and future developments along Green Lanes - Travis Perkins, Capitol House etc
- There will be construction vehicle disruption and increased building work traffic on a road (Green Lanes) already congested especially at peak times
- There will be an impact on the skyline of Enfield and not in keeping with the existing character of the area.
