

As a local resident in Winchmore Hill I formally object to the redevelopment of the Sainsbury's and surrounding green area to build further properties and commercial space:

No supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries, dentists - we already have a child who has to go to school in Palmers Green because our local Winchmore Hill school is oversubscribed- instead of being able to walk our child to school we now have to drive, which has a negative environmental impact. This will no doubt be the case for even more parents if you implement this development

This development will lead to an over development of the area

The green space is useful for residents who live in the surrounding flats and do not have gardens

This development will lead to the destruction of habitat and woodlands
