

---

I would like to object to the local plan specifically in relation to:

- 1 The council should only build the housing numbers specifically required by Government. LB Enfield is a crowded borough already, if anything we should reducing housing numbers. If the Council needs to meet the minimum government targets then that is what we should do and no more
2. I object to the use of Sainsbury's Winchmore Hill for Housing SA32 – on the grounds that losing a busy local supermarket will mean more people travelling by car to other locations hence increasing pollution and congestion, it is a valuable local amenity, we will lose parking spaces for other local shops as it is an easy walk into Winchmore Hill Broadway ( and we are losing further spaces from Forde Grove).
