

I object to this local plan.

The loss of a major supermarket in the area will force folk to drive further. This will not help elderly or disabled folk and will increase car usage in already congested roads.

This will increase pollution on local roads and especially affect school children.

This development will lead to the destruction of habitat and woodland. In 1986 the Secretary of State allowed permission for Sainsbury's to be built with the condition that the green space was retained for community use. Why is this not being adhered to?

Enfield residents require larger affordable family homes which are not being offered here.
