

---

I am writing to strongly object to the development of any part of the green belt. This land was never meant to be built on and when we are fighting climate change it is even more important to preserve our green spaces. We have already lost Whitewebbs golf course also at a time when we are being encouraged to exercise and the surrounding green space is such a loss to this borough. We will never get the green belt back and once part of it has been developed it is likely that more will go. There are many brown spaces that could be developed without the loss of our green space and also without such an impact on the environment
